The County of San Diego is pleased to invite the public to participate in a workshop for the design of a new visitor center for the San Elijo Lagoon Ecological Reserve. The San Diego County Department of Parks and Recreation intends to design and construct a new visitor center, including exhibits and displays at San Elijo Lagoon Ecological Reserve. Currently, the County operates a small visitor center at the park. The new center will replace this facility. This is an opportunity for you to learn more about the project, express suggestions and ask questions. For information, please contact Vince Nicoletti, Project Manager at (858)694-3059.
